

My name is Jeanne and I am fortunate to have permission from the 'entities' of John of God in Brazil to operate a Crystal Light Bed.

Each person who receives a Crystal Light Bed Healing reports a different effect relevant and unique to their condition, needs and level of awareness.

There is no 'right' way to experience a Crystal Light Bed. Some report feeling a sense of deep inner peace and some feel energised. The healing may be subtle and gentle others simply drift off into a deep restful sleep.

ENERGY VIBRATION THERAPY

The Crystal Light Bed combines the power of Colour and Crystal Healing. The Crystals are mined in a small town called Garimbo de Ouro. Joao de Deus says that the crystals are "born in beds of water, deep beneath the earth". Each crystal comes from a single stone extracted from the earth and is carefully hand-sculpted beneath a waterfall. There are no joints in any of the crystals used in the healing bed.

Known as John of God, Joao de Deus is a full trance medium who works at the Casa de Dom Inacio in Abadiania in central Brazil.

He allows a specific group of highly evolved entities to take over his body and perform miraculous healings.

These healings can occur on any levels ~ spiritual, mental, emotional or physical. Dom Ignatio, the Saint Ignatius of Loyola, is the patron spirit or entity who directs the healing work from the spiritual dimensions.

The Crystal Light Bed has 7 extremely clear quartz crystals suspended approximately 12 inches above the client lying on a massage table. Each crystal is aligned above one of the seven human energy centres or chakras. Coloured lights, chosen to match the chakra colours, radiate light and energy through the crystals to each respective chakra and shine on and off in certain rhythms to cleanse, balance and align your energies. When our chakras are out of balance, all the other aspects of our selves will also be out of balance.

The 'entities' use the crystals to channel their healing energy into the individual receiving the Crystal Light Bed Healing. The crystals produce a constant vibration of the same frequency as does water in its purest state. Moving water will pick up the vibration from the crystal through resonant interaction and this transferred charge will restructure the water. Since we are made up of 90% water, this carries strong implication for how our health can be affected. Once charged with Casa energy, the frequency of the stone's energy is changed and the amplitude is significantly increased, which makes the energy emitted from the crystals very powerful. 95% of clear quartz is Casa Energy and 5% the inherent energy of the quartz.
